

# GATE GUARD JOB DESCRIPTION & REQUIREMENTS

## SUMMARY

**J&G Security** has been providing gate-guarding services to many industries throughout Texas, Louisiana, and New Mexico **since 1995**. These industries include, but are not limited to:

Oil and Gas, Construction, Solar Farming, Wind Farming, etc.

**Our business license is: B17625**

Our highest concentration of gates are currently located in Southern and Eastern **Texas**, and **Northern Louisiana**. These are primarily **TEAM** gates, with a few exceptions on which we require **SOLO** guards.

Each gate usually lasts between **1-3 months**. You may have the opportunity to move with that project, or to transfer to a new gate once your current assignment ends.

## TEAMS

### 24/7 GUARDING

Our TEAM gates are responsible to provide 'round the clock security.

This includes:

- Residing in your own RV on location
- Logging in and out each truck that passes your gate
- Observing and reporting all potential hazards or unauthorized personnel to manager of site

## SOLO

### 12-HOUR SHIFTS

Our SOLO gates are generally 12-hour gates, day or night. Most of our solo gates require the guard to work from his/her own vehicle. Our rate reflects this and the travel to location.

The general responsibilities are the same as those that our TEAM gates provide.

# BENEFITS

Here at J&G Security, our guards are our best feature! We try to ensure the fulfillment of our guards with the following benefits:

- **Above Industry-Standard Pay:**

- For TEAMS, this usually ranges between \$175-\$225 per day per couple.
- For SOLO gates, this rate ranges between \$175-200 per day
  - *This rate reflects the travel to and from location, as well as not having certain conveniences while working from your vehicle*
- As **Contract Guards**, you will receive a 1099 for your filing purposes
  - This status does afford most guards the opportunity to write off many expenses

***These rates are based on the business and remoteness of the gates, and are subject to change at any time***

- **Full Hook-ups Provided:**

- *This benefit is provided to our TEAM guards that reside on-site*
- Upon being assigned a gate, one of our Field Maintenance Experts will greet you with a 16-20' trailer that will house the following:
  - (1) 12kw generator
  - (1) 300g fuel tank
  - (1) 500g fresh water tank
  - (1) 500g septic holding tank and (1) septic pump
- We also provide the maintenance and refreshment of these utilities and resources

- **Time Off:**

- Though many of our individual gates last between 1-3 months, we are able to accommodate most preferences regarding time assigned. Many of our guards work 6-8 months, and are replaced upon reaching their limits. Transparency is key.

# REQUIREMENTS

The State of Texas requires that our security guards obtain and maintain a **Level 2 Non-Commissioned Security Guard License**. This license permits you to perform **unarmed** security work.

**We first recommend that new applicants visit <https://www.dps.texas.gov/rsd/psb/> to ensure that you are in fact eligible for this license**

Facts about this course:

- This is an online course which takes approximately **6 hours** to complete
- You are able to **exit and save** as needed
- There are **4 main stages** to becoming licensed:
  - **TEEX:**
    - There are multiple courses available by which to obtain your licensure. We have found that that provided by Texas A&M Engineering is both the most efficient and cost effective
  - **TOPS:**
    - You will be prompted for our state license number to identify your employer: **License # B17625**
    - You will also be notified the J&G Security needs to **verify** your employment. We will automatically take care of this within **2 business days**.
    - TOPS will conduct the remaining 2 stages of licensure:
  - **Fingerprints:**
    - Through IDENTIGO. These locations can be found around the country and are generally walk-in only
  - **Background Check:**
    - This background check will serve to qualify that you are in fact eligible for Security Guard Licensure
- The cost is usually about **\$89.00 - \$125.00 per person**, all fees included
  - *This figure has been verified as of 2022*

**We provide detailed documents to help guide you through the entirety of this process**

## OTHER QUALIFICATIONS

**Below is a list of products or services we will need you to provide:**

- Anyone on location (incl. children) must be **at least 18** years of age
- **RV and partner** (if interested in a TEAM 24/7 gate)
- Dependable **cell phone**
- Dependable **transportation**
  - From which to work (if SOLO)
  - To tow RV (if TEAM)
  - To obtain groceries and toiletries as needed
- **Insurance:** we deduct for Workman's Comp, but guards are responsible for their own SS, Medi-care, 1040 taxes, and healthcare
- **Driveway sensors**
  - *Upon request, we can provide a list of links to products our guards have used*
- **Lights**
  - *We try not to expect or assume the provision of any item from our clients*

Above all:

**Dependable, enthusiastic service to our clients!**

## NEXT STEPS

**If you haven't already, please either:**

- Send your resume(s) to [recruiting@oilgates.com](mailto:recruiting@oilgates.com)
- Fill out the online application at [oilgates.com](http://oilgates.com) under the 'Contract Opportunities' tab

**Next, we ask that you send us photos of the following:**

- Driver License(s)
- Individual Headshot(s) for badge
- Certificate of Level 2 Non-Commissioned Security Guard License
  - *This can be sent as soon as the course is completed*

# THANK YOU
